100 % Organic

MADE FROM 100 % ORGANIC MATERIALS

Products from the Odeja Organic collection create a wonderfully pleasant and amazingly comfortable sleeping climate. Organic cotton and wool are in natural harmony with the human body.

GOTS Certified

ORGANIC COTTON WITH GOTS CERTIFICATE

Organic cotton is grown on ecologically cultivated fields, without fertilizers, pesticides and insecticides. Organic cotton is typically grown from non-genetically modified (GMO) seeds, maintaining the integrity of the plant's genetic makeup. The processing of cotton fibres is completely ecological and does not contain harmful chemicals. Strictly ecological production brings out all the best qualities of cotton fibres.

ORGANIC WOOL WITH GOTS CERTIFICATE

Organic wool is produced in a completely ecological and animal friendly way: sheeps graze in pastures that are not processed with fertilizers, pesticides and insecticides. The health of sheeps is strictly monitored and does not contain any unnecessary treatment with antibiotics. The wool is shorn, cleaned and processed in a very careful way.

BENEFITS OF ORGANIC COTTON

Organic cotton is indispensable for everyone that likes to sleep in a very fresh and gentle sleeping environment:

- it is very **skin-friendly** and pleasant to the touch;
- it is **extremely hydrophilic**: it excellently absorbs and emits body moisture into the room;
- due to its very special structure it is **wonderfully airy and light**;
- it **efficiently conducts warmth**, therefore it cools in the summer and warms in the winter;
- organic cotton is grown from **non-genetically modified (GMO)** seeds.

BENEFITS OF ORGANIC WOOL

Organic wool creates a really dreamy sleeping climate:

- depending on the moisture and temperature of both, the room and the user, it **creates the perfect amount of warmth** and is thus suitable for all seasons;
- it **excellently keeps the warmth and evenly distributes it** all over the body and therefore brings you complete relaxation during sleep;
- it **excellently drains body moisture** into the room;
- it is resistant to the mold.

BENEFITS OF NATURAL LATEX

Natural latex, derived from the sap of rubber trees, offers several benefits:

- provides a **firm and supportive sleeping surface**. It conforms to the body's contours, reducing pressure points and enabling a more restful sleep;
- has **natural breathability and heat dissipation properties**, helping to regulate body temperature and keep you cool during sleep;
- is naturally **resistant to mold**, reducing the risk of these allergens in your bedding;
- is highly **resilient and long-lasting**. A high-quality latex pillow can provide comfortable support for many years;
- **easy to maintain**.

Pillows

ORGANIC MEDIUM PILLOW

Medium soft pillow
made of organic cotton and wool

 With removable washable cover

COMPOSITION:

Fabric of washable quilted cover:

100 % organic cotton,
with GOTS certificate

Filling of washable quilted cover:

100 % organic cotton,
with GOTS certificate (150 g/m²)

Fabric of inner pillow:

100 % organic cotton,
with GOTS certificate

Filling of inner pillow:

100 % wool organic balls,
with GOTS certificate

CHARACTERISTICS:

- the composition of the core offers a comfortable head support and a healthy body position;
- the quilted cover has a zipper so it can be easily removed and washed separately;
- the zipper is also sewn into the pillow insert, allowing to adjust its height;
- suitable for all sleeping positions.

ORGANIC LUX LATEX PILLOW

Compact anatomical pillow
made from natural latex

 With removable washable cover

COMPOSITION:

Fabric of washable quilted cover:

100 % organic cotton,
with GOTS certificate

Filling of washable quilted cover:

100 % organic cotton,
with GOTS certificate

Pillow core:

Natural latex,
with GOLS certificate

CHARACTERISTICS:

- natural latex is characterised by its superior softness and elasticity and is extremely long-lasting;
- the perforated structure of the core gives a pleasant feeling of breathability and freshness;
- the quilted pillow cover is made of premium organic cotton with GOTS certificate, which is soft to the touch and very kind to the skin;
- the removable pillow cover has a zipper and can be washed on a low temperature if necessary, keeping the pillow extra clean.

Quilts

ORGANIC COTTON LIGHT QUILT

Light summer quilt
made of organic cotton

With straps

COMPOSITION:

Fabric:
100 % organic cotton,
with GOTS certificate

Filling:
100 % organic cotton,
with GOTS certificate (300 g/m²)

CHARACTERISTICS:

- fabric is soft to the touch and very kind to the skin;
- quilt is suitable for those with sensitive skin;
- it is breathable, light and efficiently wicks body moisture into the room;
- the quilt has straps that allow you to tie two quilts together to make a warmer one.

ORGANIC WOOL MEDIUM QUILT

Medium warm quilt
made of organic wool

With straps

COMPOSITION:

Fabric:
100 % organic cotton,
with GOTS certificate

Filling:
100 % organic wool,
with GOTS certificate (300 g/m²)

CHARACTERISTICS:

- wool is an extremely flexible fibre and, together with the 100% organic GOTS-certified cotton percale, creates royal comfort;
- it generates just the right amount of warmth and distributes it evenly throughout the body;
- organic wool is mould-resistant and moisture wicking;
- the quilt has straps that allow you to tie two quilts together to make a warmer one.

CREATE ORGANIC DOUBLE QUILT

Tie two quilts together with straps to create a warmer one.

BENEFITS OF TYING TWO QUILTS TOGETHER:

Tying together two quilts, especially when they are made of different materials like sheep wool and cotton, can offer several benefits:

- **Enhanced Insulation**

Combining a sheep wool quilt and a cotton quilt can result in enhanced insulation. Wool is known for its excellent natural insulation properties, providing warmth, while cotton is breathable and can help regulate temperature.

- **Versatility for All Seasons**

The combination of wool and cotton allows versatile bedding solutions suitable for various seasons. Wool is effective in retaining heat during colder months, while cotton's breathability makes it suitable for warmer seasons, creating a comfortable all-year-round option.

- **Moisture control**

Wool and cotton have natural moisture-wicking properties, drawing moisture away from the body and helping maintain a dry sleeping environment. Together, they can contribute to balanced moisture management, reducing the likelihood of discomfort caused by excessive sweating.

- **Customized Comfort**

Tying two quilts together allows you to customize the level of warmth and comfort according to your preferences: you can tie together two quilts made of organic cotton if you prefer lighter double quilt, but if you easily feel cold tying two organic wool quilts together will give you sufficient warmth during cold winter days.

PERLA ORGANIC MEDIUM QUILT

Medium warm weighted quilt
made of organic cotton

With glass beads

COMPOSITION:

Fabric:

100 % organic cotton, with GOTS certificate

Filling:

100 % organic cotton, with GOTS certificate
(300 g/m²),
glass beads (total weight of quilt is 4 or 7 kg)

CHARACTERISTICS:

- a weighted quilt made of 100% organic cotton can help sleep better with its softness, warmth and flexibility;
- its weight creates a gentle pressure on the body, triggering positive emotional effects that can contribute to a better quality of sleep;
- the 100% organic cotton fabric is soft to the touch and very kind to the skin;
- its breathability, lightness and effective wicking of body moisture into the room make it wonderfully comfortable;
- **RECOMMENDATION:** Organic Perla Medium quilt should weight less then 1/10 of a weight of a person who is using it.

Mattress cover

ORGANIC MOLTON MATTRESS COVER

Protective mattress cover, molton
made of organic cotton

 With elastic band

COMPOSITION:

Fabric:

100 % organic cotton, molton,
with GOTS certificate (400 g/m²),
with elastic bands

CHARACTERISTICS:

- organic molton is exceptionally soft and gentle organic cotton fabric, with a velvet-like nap;
- is excellent heat insulator and is moisture-wicking;
- the top can be attached very easily to the mattress using four elastic bands and create a pleasantly airy and natural sleep climate in your bed;
- molton cover absorbs moisture very efficiently and is therefore recommended for people who are prone to sweating during the night;
- it is breathable and temperature regulating and has no artificial moisture barrier made of plastic.

Bed linen

TARA ORGANIC BED LINEN WITH LACE

Elegant bed linen with floral lace
made of organic cotton

 With zipper

COMPOSITION:

Fabric:

100 % organic cotton, with GOTS certificate,
with floral cotton lace

CHARACTERISTICS:

- fabric is soft to the touch and very kind to the skin;
- is suitable for those with sensitive skin;
- is breathable, airy and efficiently wicks body moisture into the room;
- a very elegant design with beautiful hand-made floral lace;
- bed linen has a zipper for easy closure.

TIA ORGANIC BED LINEN WITH TIES

Gentle bed linen
made of organic cotton

 With straps

COMPOSITION:

Fabric:

100 % organic cotton, with GOTS certificate
available in 5 different colours

CHARACTERISTICS:

- fabric is soft to the touch and very kind to the skin;
- is breathable, airy and efficiently wicks body moisture into the room;
- fabric is dyed with natural color shades that do not include toxic chemicals and are not harmful to the skin;
- a completely natural, organic look, which becomes even more apparent after the first wash and thus emphasizes its authenticity;
- elegant ties that make it extra charming;
- packed in a handy eco-bag made of organic cotton in the same color as bed linen.

HERA ORGANIC FITTED SHEET

Gentle bed sheet
made of organic cotton

CHARACTERISTICS:

- fabric is soft to the touch and very kind to the skin;
- bed linen is suitable for those with sensitive skin;
- fabric is breathable, airy and efficiently wicks body moisture into the room;
- bed linen has very elegant design with a beautiful embroidery.

MAINTENANCE OF ORGANIC PRODUCTS

- **Shake and ventilate** the products regularly so that moisture evaporates. You will thus retain its freshness, thermal characteristics and prevent the intrusion of dust mites.
- Wash the products using the programme for wool, at the lowest possible spin speed or **at a maximum of 400 RPM!** The use of liquid wool detergents or mild natural detergents for delicate laundry is recommended as well.
- After washing, dry the products **on a flat surface**. Do not dry it directly in the sun or in a dryer.
- In the process of washing organic cotton fabric will naturally **became lighter in colour**.
- Since organic cotton fabric is not treated with harmful chemicals, it is expected that **it will become wrinkled**, but with use the appearance will improve again.
- The completely natural cotton filling consists also of cotton seeds that **may tint the fabric** after first washing. In order to remove any coloration, we recommend washing the products again immediately after the first washing, before drying.
- Natural fillings **may have a natural scent**, which will subside after the product will be taken out of packaging. We also recommend to ventilate it on fresh air before its first use, but hang it in the shade.

ODEJA - QUILTED EXCELLENCE SINCE 1932

Odeja is a renowned manufacturer of products for furnishing homes and buildings. We develop and manufacture textile products like quilts, pillows, bed linens, upper mattresses, and other accessories. Odeja products create a high standard of living, as they are distinguished by certified materials and state-of-the-art innovative manufacturing.

We know how to fully adapt to your wishes regarding the choice of materials, product dimensions, and ordered quantities. When you choose Odeja as your supplier, you will gain a partner with a strong, dedicated development team and superior and flexible production.
